

The Wise Fools

Four musicians from Bern, one mission: to bring rock, in all its dynamic and powerful forms, to the stage. With their unique blend of groovy riffs, gripping melodies, and boundless energy, they light up the audience's faces and get even the stiffest necks nodding along. Their music is an invitation to embark on a journey through the full spectrum of rock - energetic, emotional, and unforgettable.

With their debut album *Out of Control*, the band conquered stages big and small, including the Waldbühne at the Gurtenfestival. In April 2024, they celebrated the release of their new album *The World is a Freak Show* at the Mühle Hunziken. Now, they are back on tour, taking this record across Switzerland.
